

Building the future skills stack for India

WHO WE ARE

Preparing 300 Million Learners for the Future

Get Set Learn (GSL) is a future-skills-focused learning startup backed by the iconic **Arvind Mafatlal Group**, an institution with over 100 years of trust and legacy in India's school ecosystem.

GSL was founded with a clear purpose

To bridge the widening gap between what schools teach and what tomorrow demands. We work with schools to deliver future skills programmes that equip students with critical 21st-century skills: from AI and robotics to life skills and entrepreneurship.

In a world where 60% of students in India lack job-ready skills (World Economic Forum) and a 24% skills gap exists (Economic Survey of India, 2024), we are reimagining how skill-centric learning can serve employability, purpose, and progress.

Our learning formats

Bootcamps, immersions, and structured year-long courses are NEP 2020 and SDG aligned, experiential at heart, and designed to empower learners from diverse geographies, abilities, and backgrounds.

OUR IMPACT

Skilling where it matters

GSL works with national and international partners to deliver globally benchmarked programmes, grounded in the Indian context.

STRATEGIC COLLABORATIONS

CAMBRIDGE

OUR MISSION

To make future skills accessible, inclusive, and impactful.

OUR IMPACT FOOTPRINT

50K+

Learners impacted across schools

30+

Cities across India

Data-backed

Monitoring across geography, gender, and learner profile

Future-Ready Girls

Special focus on AI and entrepreneurship for young women

7 Boards

Conducted programmes for CBSE, ICSE, IB, IGCSE, state-run, tribal, and private schools

Schools We've Worked With:

Four Pillars of Future Ready Learning

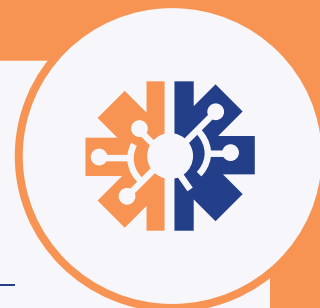

Over the past three years, GSL has built a focused portfolio of hands-on programmes that bring future skills directly into classrooms.

Each offering is school-ready, scalable, and designed to build depth, not just exposure.

Artificial Intelligence Quotient

ARTIFICIAL INTELLIGENCE (AIQ)

CERTIFIED BY: IIT Guwahati & Get Set Learn

FACILITATORS: B.Tech/M.Tech professionals

FORMAT: Bootcamp (6–8 hours) or Programme (10 months)

KEY SKILLS

- Introduction to AI & the Art of Prompting
- AI-generated text, images, and videos
- Digital flipbook publishing

HIGHLIGHTS

- 10+ hands-on AI tools
- Learn Smarter with AI as your study buddy
- Prompt to Publish: Bring your eBook to life
- AI Video Magic: Create, edit & caption fast

young pioneers
FOSTERING AN ENTREPRENEURIAL MINDSET

ENTREPRENEURSHIP YOUNG PIONEERS PROGRAMME

CERTIFIED BY: Cambridge University Press & Assessment & Get Set Learn

FACILITATORS: Industry experts & entrepreneurship coaches

FORMAT: Structured coursebook with in-class & mentor-led sessions

KEY SKILLS

- Ideation, testing, and business pitching
- Investor and jury presentation
- Entrepreneurial mindset building

HIGHLIGHTS

- National quiz and guided mentorship
- Masterclasses by industry leaders
- Joint Cambridge certification

LIFE SKILLS & LEADERSHIP BOOTCAMPX & LEARNING LIBRARY

CERTIFIED BY: Harvard Business Impact & Get Set Learn

FACILITATORS: Leadership coaches and classroom experts

FORMAT: Guided sessions + digital library access

KEY SKILLS

- Communication, critical thinking, decision-making
- Real-world confidence and clarity
- Teamwork and self-awareness

HIGHLIGHTS

- 2 guided learning sessions per course
- 6-month access to Harvard Business Impact content
- Certificate upon successful online assessment

STEAM & ROBOTICS STEAM INNOVATORS PROGRAMME

CERTIFIED BY: TinkRworks & Vex Robotics & Get Set Learn

FACILITATORS: STEM educators and robotics mentors

FORMAT: Lab-based and classroom-integrated programme

KEY SKILLS

- Robotics, coding, and STEM design thinking
- Interdisciplinary learning
- Team-based problem solving

HIGHLIGHTS

- Curriculum mapped to Indian boards
- Project kits for hands-on learning
- Expert teacher training + assessments
- Opportunity to compete in Robotics World Championship

Let's Begin With a Skills Assessment

Schedule a quick diagnostic with our team to identify your school's readiness and needs across AI, entrepreneurship, life skills, and robotics. We'll help you choose the right format and pathway for your learners.
